

# Vantage Smart Performance

## Vantage Smart Performance delivers...

Tested by experts, validated by customers and results may vary

## Benefits of Vantage Smart Performance (VSP):

### Boost PC Performance

Behind the scenes, Vantage Smart Performance conducts automatic PC performance monitoring and repairs, resolving common issues. Turn on Smart Performance Services for quicker PC start-ups, improved performance and stability, and lightning-fast application launches

### Supercharge Your Online Experience

Vantage Smart Performance improves internet and network performance, constantly correcting access issues, improving connectivity, removing extraneous files that slow response times, and resolving major network issues

### Protect Your Technology Investment

Augment anti-virus tools with Vantage Smart Performance. As a complementary security layer working within your device, Lenovo detects and removes more instances of harmful spyware, adware, ransomware, and infections
